MAHMOUD IRSHAID

FRONT END DEVELOPER

PROFESSIONAL SUMMARY

Accomplished Frontend Developer with a proven track record, enhancing user interface performance and application efficiency through expert use of React, Redux, and RESTful APIs. Collaborated effectively with cross-functional teams, demonstrating strong communication skills. Achieved significant improvements in code quality and application load times, leveraging hard skills in JavaScript and a commitment to high-quality, well-documented code.

EXPERIENCE

Front End Developer
September 2024 - Present | Elevatus, Amman

- Designed REST calls using React to streamline user interface performance.
- Maintained high-level expertise in React state management strategies.
- Collaborated with cross-functional teams to develop seamless integration of APIs, improving data flow within applications.
- Developed reusable components to facilitate faster development timelines and improve overall code quality.
- Boosted application efficiency by incorporating Redux for state management and streamlining component rerendering.
- Reduced application load times by optimizing React components and utilizing code-splitting techniques.
- Write and maintain unit tests, integration tests, and end-to-end tests to ensure code reliability.

Front End Developer
August 2023 - September 2024 | Coderz For Software And Training, Amman

- Reviewed code and debugged problems to validate structures, assess security and verify browser, device and operating system compatibility.
- Advocated for well-tested and documented, high quality code.

SKILLS

- React js
- Next js
- Redux
- JavaScript
- Typescript
- SASS
- RESTful API's
- GraphQL
- Jest
- Firebase
- Jira
- Git
- Webpack
- Node js
- Express
- Mongodb

LANGUAGES

- **Arabic**
  Native

- Designed GraphQL API's calls using React to streamline user interface performance.
- Updated old code bases to modern development standards, improving functionality.
- Designed and developed interactive, real-time mapping applications for live tracking purposes.
- Optimized application performance for smooth rendering and data synchronization in live tracking scenarios.

Front End Developer
June 2022 - August 2023 │ Agents On Cloud, Amman

- Developed front-end user interface using React Native and JavaScript for iOS and Android mobile applications.
- Collaborated with other developers to implement new features in way that was consistent with existing codebase conventions.
- Resolved app defects by reviewing bug reports and tracking repeatable malfunctions within software titles.
- Used Expo as framework for React Native.
- Worked with Nx as mono repo in managing and developing Expo applications within workspace.
- Participated in design discussions regarding application architecture, feature implementation, or any other relevant topic as required.
- Collaborated with designers on UI/UX design decisions and created mockups as needed.

Full Stack Web Developer
March 2022 - June 2022 │ Freelance

- Planned website development, converting mockups into usable web presence with HTML, Css, JavaScript, AJAX, and JSON coding.
- Skilled at working independently and collaboratively in a team environment.
- Built APIs and data clients to consume APIs.
- Designed and updated layouts to meet usability and performance requirements.
- Designed and implemented RESTful APIs for mobile apps with JSON data exchange.

EDUCATION

Bachelor of Science (B.S.) in Computer Science
September 2022
The Hashemite University, Zarqa, Jordan
